inhaltsgabe abstract the diploma thesis concentrates on regional headquarters and the effect they have on a host country's labor market and the skill level of its labor force the first part of the thesis deals with the available literature giving an overview of the evolution of the topic and the most prominent issues and countries researched regarding regional headquarters moreover definitions of transnational corporations regional headquarters and the region of interest here are given in order to determine the scope of this thesis the second part is empirical in nature based on the results of the literature review a quantitative survey was conducted in order to examine the current situation of austrian regional headquarters therefore a questionnaire was sent to all regional headquarters located in austria furthermore qualitative research appears in the form of two case studies at the end of the thesis the results are summarized and recommendations are given for policy makers the key results of the work are rhqs actually have a positive effect on the domestic labor market that is on the employment rate as well as on the level of skill structure of the diploma thesis each chapter is opened by a general introduction and closed by a sub section which includes a summary and further research implications the reader is introduced to the topic at hand by a literature review in chapter 3 this section contains two main parts the analysis of studies and articles published in academic journals and the description of books and other types of publication all authors quoted in the course of my work are already included in the review which implies that it provides the foundation of the upcoming chapters chapter 4 builds the basis for the topic at hand it defines the object of investigation namely rhqs by using definitions provided by previous authors of course it takes a closer look at transnational companies which are the superior organization finally sub section 4.4 determines the scope of the region i chose to examine section 5 identifies the most important skills rhqs demand from potential employees in order to be able to do that i first took a look at the different responsibilities an austrian rhq may assume for this purpose sub section 5.2 deals with the tasks a rhq undertakes in order to fulfill hq's requirements and with the services a rhq provides for its subsidiaries chapters 6 and 7 present the empirical

the european union eu is one of the most favored destinations for immigrants in the world the subject of migration has been moving up the policy agenda of the eu for some time now this increasing emphasis will continue with the eu 2020 post lisbon strategy which refers to the potential contribution of migration to eu growth and promotes the idea of labor mobility faced with an aging population possible labor and skills shortages in the economies and the need to compete for talent with countries such as australia canada and the united states the eu is beginning to see legal

migration as an opportunity and is thus taking a more proactive approach toward it migration and skills the experience of migrant workers from albania egypt moldova and tunisia aims to unravel the complex relationship between migration and skills development based upon extensive field surveys carried out by the european training foundation and joint analysis of data with the world bank the book paints a precise picture of potential and returning migrants from four very different countries two traditional egypt tunisia and two new albania moldova sending countries it describes the skills these migrants possess the extent to which migrants are able to use their skills and training while abroad and the impact that the experience of migration has on their skills development the book also offers suggestions on how the governments of countries sending migrants and countries receiving them could move towards more effective policies for managing legal migration flows policies that address the increasingly circular nature of migration benefit all parties involved by studying the phenomenon of migration in detail migration and skills the experience of migrant workers from albania egypt moldova and tunisia seeks to promote a better understanding of the human faces behind migration who they are and what they can offer both to their host countries and their origin countries to which they return

this book presents an overview of the main research findings and case studies concerning education and skills for inclusive growth green jobs and the greening of economies focusing on india indonesia sri lanka and vietnam it discusses government and business sector responses to these issues and how technical and vocational education and training tvet systems and institutions are addressing both the renewal of curricula in the context of green growth dynamics and patterns of training and skills development to meet demands in addition the book examines cross country issues concerns and prospects regarding education and skills for inclusive growth and green jobs for the four countries these include critical themes and issues in the selected industry sectors triggering a demand for green jobs in the region how industry is responding to those demands areas impeding the transition from traditional to green practices the importance of skills development the role of tvet in addressing industry needs and reasons for the slow response of tvet to green skills while other studies conducted in asia and internationally on the same topic have largely relied on secondary sources this study conducted by the asian development bank and the education university of hong kong adb eduhk is unique in that the findings conclusions and recommendations reported on are based on primary data as part of the study tvet providers business enterprises policy makers and practitioners were surveyed using questionnaires and face to face interviews in addition workshops were held in each of the four

countries to ascertain the views of key stakeholders in government nongovernment organisations members of the international development community tvet providers and members of the business sector the book also provides summaries of the case studies undertaken for india indonesia sri lanka and viet nam

a introduction and backgroundl 2 this report reviews and interprets research on the nature and magnitude of the effects of those factors which influence how well knowledge and skills k s are retained over relatively long periods of nonuse our interest lies in the kinds of knowledge domains and skills that military personnel must master to function effectively on their jobs the practical concern impelling this study is that k s degradation or loss which we will refer to as decay can and does occur often and severely enough to jeopardize military preparedness there are occasions in all the military services when personnel who have just completed their training do not receive an opportunity to practice or use their new capabilities for weeks or months in the case of reservists who may be called back to active duty the period of nonuse of relevant military job skills may be counted in terms of years b objectives the overall objective is to critically analyze the relevant scientific literature which relates the processes involved in learning to those of memory taking into account the characteristics of the learner and the learning tasks more specifically we have focused on the following sub objectives 1 identify describe and rank the influence and the interactions of the important major variables that affect long term retention ltr 1 i am indebted to dr jesse orlansky institute for defense analyses for his encouragement and guidance through all phases of this report

this groundbreaking research volume addresses the topic of educational inequality from a global perspective it includes 16 chapters from an international group of scholars who examine how well city school systems from around the world are preparing young people particularly poor and minority students with the skills they will need for further study work and life overall while skills in key domains such as science math language and civics have been center stage in international comparisons there has been growing recognition of the effects that education has on the development of broader sets of capabilities such as social and emotional skills also known as noncognitive or 21st century skills that can affect the success of students in school and beyond this volume aims to address the shortage of international data on the wide range of skills that students need to learn enabling researchers to compare the types and causes of educational inequality in skills within and between cities
